FREE FLOWER SEEDS

Four Packages Free with Every Order for
50c or More

A flower garden for every Southern home is an idea that I should like to see fulfilled, and I am doing my utmost to help the thing along. It is really so easy to beautify the home grounds and requires very little care, and yet we see so many homes without the inspiration and decoration of pretty flowers. It has been my custom for years to give free flower seed to my customers, and this season I have prepared a most appropriate assortment for Southern yards. With each order of 50c or more I will include FREE four packages of fresh flower seeds, made up of the following varieties, as illustrated: (1) Double Poppy, (2) Cosmos, (3) Mexican Fire Bush, (4) Four O'Clock. Full descriptions and cultural suggestions are plainly printed on the packets, and I know the collection will please you.

REUTER'S SUPERIOR VEGETABLE SEEDS

Selected for Southern Gardens

Black Valentine Bean

No. 10—One of the most attractive green beans in cultivation, unexcelled for market gardeners, and unsurpassed for productiveness and shipping qualities. Pods are round, medium dark green, about six inches long, and quickly salable in all markets. Ready for picking in about 45 days.

Prices: Pkt., 10c; lb., 40c; 2 lbs., 70c; 5 lbs., \$1.50; 10 lbs., \$2.75, postpaid. Not prepaid, by express or freight, peck (15 lbs.), \$3.00; bu. (60 lbs.), \$11.00; 100 lbs., \$18.00.

The varieties illustrated and described on this and following pages are selected because of their proven adaptability to Southern soils and climate. Market gardeners throughout the Southern states regularly plant these varieties and they are equally superior for the home garden. Space does not permit listing and describing my entire assortment—my big Spring 1921 Catalog is complete and you'll find it indispensable in home or market gardening or farming.

Giant Stringless Green Pod Bean No. 14

Perfectly stringless, exceedingly productive and very attractive. Plants are large, vigorous and spreading. Pods are large, nearly round and of medium green color. Mature a few days later than the Stringless Green Pods, average one-fourth inch longer and are more nearly straight.

Prices: Pkt., 10c; lb., 40c; 2 lbs., 70c; 5 lbs., \$1.50; 10 lbs., \$2.75, postpaid. Not prepaid, by express or freight, peck (15 lbs.), \$3.00; bu. (60 lbs.), \$11.00; 100 lbs., \$18.00.

Wardwell's Kidney Wax Bean No. 23

One of the earliest, best, and hardiest of the wax sorts. Plants become loaded with long, broad and flat, beautiful waxy colored pods which are stringless and of a rich luscious flavor and exceedingly brittle; dried beans are a distinct kidney shape. Pods about six inches long and of unsurpassed quality.

Prices: Pkt., 10c; lb., 35c; 2 lbs., 65c; 5 lbs., \$1.40; 10 lbs., \$2.70, postpaid. Not prepaid, by express or freight, peck (15 lbs.), \$2.50; bu. (60 lbs.), \$9.00; 100 lbs., \$14.50.

Crosby Egyptian Beet No. 54

Roots are flattened globe shape and very smooth. Bright red exterior color, flesh a bright vermilion red, zoned with a light shade, sweet, tender and of excellent quality. Small top makes it desirable for bunching.

Prices: Pkt., 10c; oz., 15c; ¼ lb., 35c; 1 lb., \$1.00; 5 lbs., \$4.50, postpaid.

Extra Dark Evergreen White Spine Cucumber No. 215

Unsurpassed as a table and market cucumber. Eight to nine inches long and two to three and one-half inches in diameter. Black-green in color, which it holds for several days after picking. Crisp and tender.

Prices: Pkt., 10c; oz., 15c; ¼ lb., 35c; 1 lb., \$1.25; 5 lbs., \$5.50, postpaid.

Danver's Half Long Carrot No. 129

A half long orange carrot, very productive and adaptable to all soils, a desirable second early sort. Tops medium size, mature roots of medium length, six to eight inches long, tapering uniformly to a blunt point.

Prices: Pkt., 10c; oz., 15c; ¼ lb., 35c; 1 lb., 90c; 5 lbs., \$4.00, postpaid.

Charleston Wakefield Cabbage No. 83

The finest spring cabbage for the South. Matured heads average 10 to 12 pounds each, a sure header and regular in growth. Heads of equal size and very solid. Withstands severe weather, is a quick grower, two weeks earlier than flat-headed types, and is a heavy producer. Usually crisp and sweet and ideal for either home or market garden. Include this in your order.

Prices: Pkt., 10c; oz., 30c; ¼ lb., 90c; 1 lb., \$3.00, postpaid.

New Orleans Market Eggplant No. 236

A long, dark purple variety that is absolutely distinct and perfectly adapted to the South. Plants grow large and high, sometimes five feet, and bear fruit entirely off the ground. Being an upright grower, it resists heat and drouth. Its color is deep purple, sometimes showing a tinge of red, very large in size, oval in shape, absolutely spineless, and of highest quality. Best for home or shipping.

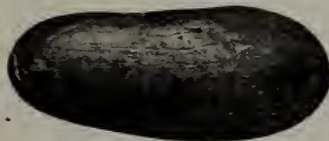

Prices: Pkt., 20c; oz., 50c; ¼ lb., \$1.50; 1 lb., \$5.50, postpaid.

Tom Watson Watermelon No. 602

The greatest shipping watermelon. Extra long, of attractive appearance, uniform in shape, size and quality. Average melon weighs from 40 to 50 lbs., and often as much as 75 lbs., and measures 28 to 30 inches long and 12 to 14 inches in diameter. Skin is dark green with thick netting all over, quite distinct from other sorts.

Prices: Pkt., 10c; oz., 15c; ¼ lb., 35c; 1 lb., \$1.00; 5 lbs., \$4.50, postpaid.

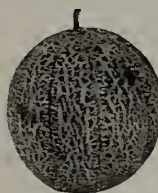

Reuter's New Wonder Melon No. 607

Fifty thousand Southern farmers declare this to be the finest home and market watermelon. Large and long in shape, resembling the Watson, but thicker and a dark, solid green. Seed is large and pure white. A heavy producer and in flavor and quality is superior to them all. Developed, introduced and controlled by Reuter—should be in every home garden. Seed supply limited. Order early or you'll be disappointed.

Prices: Pkt., 15c; oz., 25c; ¼ lb., 75c, postpaid.

Pollock 10-25 Cantaloupe No. 119

The latest and without a doubt the best cantaloupe for home or shipping. A re-selection from the Pollock 25 Salmon Tint. Netting is heavy and even from stem to blossom, melons running uniform in size. Resistant to rust, rather early in maturing and harvest in splendid shape. Melon cuts with a golden center generally shading out to emerald green near the rind. Prolific in growth, packs fancy, carries well, and is unsurpassed in flavor. A brand new melon. Order it for a trial.

Prices: Pkt., 10c; oz., 20c; ¼ lb., 50c; 1 lb., \$1.50, postpaid.

Royal King Pepper No. 427

Developed and perfected in the South. The finest for home or market use. Very prolific, fruit of brilliant color, very glossy, of large size; the flesh is very thick and mild; uniform in shape and size. My seed runs remarkably true to type and produces strong, stocky, erect plants. A certain money-maker for the market or commercial gardener.

Prices: Pkt., 10c; oz., 40c; ¼ lb., \$1.25; 1 lb., \$4.00, postpaid.

Alaska Peas (Earliest of All) No. 404

A choice extra-early pea maturing in about 35 days. Vines medium in height, about two and one-half to three feet. Pods are of good size, about two and one-half to two and three-fourths inches long. Matures its crop at once. A smooth blue pea, even in growth, early maturing and of excellent quality.

Prices: Pkt., 10c; lb., 35c; 2 lbs., 65c; 5 lbs., \$1.50, postpaid. Not prepaid, by express or freight, peck (15 lbs.), \$3.00; bu. (60 lbs.), \$11.00; 100 lbs., \$18.00.

Prolific Early Market Peas No. 408

A smooth white-seeded extra early sort, with large pods, tall vines and of remarkable productiveness. It yields 30 to 50 per cent better than any other strain of extra earlies of which I know. Quality of the very best and one of the sweetest and finest flavored of the earliest smooth varieties.

Prices: Pkt., 10c; lb., 35c; 2 lbs., 65c; 5 lbs., \$1.50, postpaid. Not prepaid, by express or freight, peck (15 lbs.), \$3.00; bu. (60 lbs.), \$11.00; 100 lbs., \$18.00.

Non-Warranty—Chris. Reuter does not give, and his agents and employees are forbidden to give any warranty, express or implied, as to description, quality, productiveness, or any other matter of any seeds, bulbs, plants, etc., he sends out and he will not be in any way responsible for the crop.

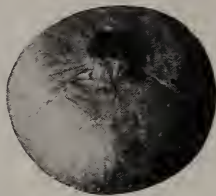

Special MARKET GARDENERS' Varieties

GENUINE GREEN STRIPED CASHAW PUMPKIN No. 445

The finest pumpkin for the table and grown extensively by local market gardeners. Large, with crook neck, color creamy white, irregularly striped or traced with green; flesh light yellow, very thick, rather coarse, but sweet. Very hardy, insects or disease rarely bothering them. Can be grown among corn and makes heavy yields. Good for table and stock. The seed I offer is genuine stock, produced from my own pure stock seed.

Prices: Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.75, postpaid.

Reuter's True Tenerife Grown White or Yellow Bermuda Onion No. 365

This is the standard variety for the commercial grower and none is more suitable or desirable for the home garden. It is a light straw colored onion and because of the extreme care given to our seed in the growing you can depend upon early maturity, fine uniform color and decidedly heavy yield.

My seed is grown under expert supervision in Tenerife and comes to me in sealed tins, free from any contamination or mixture. Be sure to include this splendid onion in your order.

Prices: Pkt., 10c; oz., 40c; ¼ lb., \$1.25; lb., \$4.00, postpaid.

Early Scarlet Turnip White-Tipped Radish No. 461

If you wish to have the finest and first round white-tipped radishes, plant this selected strain. Skin is of a rich scarlet color, tipped white. Extremely quick in maturing, being ready for the table in 20 days from time of sowing. Skin is smooth and the flavor extra fine. A quick-selling sort for market gardeners and equally as desirable for the home table. My seed is extra choice and is grown expressly for me under contract.

Prices: Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., 90c; 10 lbs., \$7.50, postpaid.

Cincinnati Market Radish No. 463

A standard market radish and a splendid long variety for kitchen gardens. Skin is scarlet colored and very thin; flesh is crisp, brittle and of a delightful flavor. Roots are slender and before becoming pithy are often six to eight inches long by about five-eighths of an inch in diameter at shoulder.

Prices: Pkt., 10c; oz., 15c; ¼ lb., 35c; lb., 90c; 10 lbs., \$7.50, postpaid.

you fail to find some favored variety of garden, field or flower seed in this Bulletin, you will likely find it in my Big Illustrated Spring 1921 Catalog. A post card is enclosed with this Bulletin—fill it out, mail it at once and read this handsomely illustrated book.

THERE is more genuine economy in producing your own vegetables and foods at home than in selling cash crops at big prices and buying all that goes on your table. Be sure to have a good-sized home garden; sow Reuter's Peerless Seeds and you'll save money and live better.

Reuter's Certified Seed Potatoes

Northern grown and quick maturing. Certified by State of Wisconsin as being free from disease and varied mixture, thus insuring larger yields, uniform maturities and larger profits. Only strong, productive plants provide this Certified Seed. Like produces like and you are assured of a splendid crop. Don't confuse this Certified Seed with ordinary so-called seed potatoes. Supplied only in Red Triumph and Irish Cobbler varieties.

Prices: Peck (15 lbs.), \$1.50; bu. (60 lbs.), \$5.00; 2 bu. bags, \$9.00.

These prices are subject to change without notice. Write for market prices when ready to buy.

Livingston's Globe TOMATO No. 545

A standard variety in Florida and other trucking sections. An absolute globe-shaped sort, ripening very early, color a glossy red, tinted with purple. Vines are vigorous and productive. Fruit borne in clusters of from three to seven, plants being literally loaded down. It is distinct in shape, fruit is firm and plants are practically blight-proof. Splendid for long distance shipping and fine for home use.

Prices: Pkt., 10c; oz., 40c; ¼ lb., \$1.25; lb., \$4.00, postpaid.

Earliest White Bush SQUASH No. 515

The earliest of all squashes and familiarly known as Patty Pan. Vines are vigorous and very productive. Fruits are of medium size, somewhat flattened and scalloped. Color creamy white with comparatively smooth surface. Market gardeners tell us that our stock is earlier than others and more productive of uniform fruits. My strain is kept pure by most rigid selection and will please you.

Prices: Pkt., 10c; oz., 20c; ¼ lb., 50c; lb., \$1.75; 5 lbs., \$8.00, postpaid.

Peerless June Pink Tomato No. 557

A good shipper and fine for the table. A highly developed strain that will produce an attractive purplish-pink tomato of fine quality and as early as the Earliana. Fruits large, nearly round, very smooth and solid. Grow in clusters and are uniform and prolific. It is as smooth as the Stone and as seedless as the Ponderosa. Mine is an especially good strain and is planted by many of the large commercial growers.

Prices: Pkt., 10c; oz., 40c; ¼ lb., \$1.25; lb., \$4.00, postpaid.

Reuter's Big 7-Ounce Turnip Collection No. 900

This collection will give any Southern family a full supply of early, medium and late turnips. Large, full ounce packets of each of these varieties: Extra Early White Egg, Purple Top Strap Leaf, Early White Flat Dutch, Peerless Purple Top White Globe, Large Snow White Globe, Southern Seven Top and American Purple Top Rutabaga.

Seven ounces, 7 varieties 25c, postpaid.

Improved American Rutabaga No. 591

An improved strain and the finest sort to sow in the South. Whether grown for table use or stock feed, you'll find this variety best of all. My seed will produce a root with a small top of uniform size and shape and with a single tap root, a root of high feeding quality, fine flavor, and great productiveness. Yields of 15 to 25 tons of roots per acre are not remarkable with my seed.

Prices: Pkt., 5c; oz., 10c; ¼ lb., 25c; lb., 75c; 5 lbs., \$3.00, postpaid.

Reuter's Purple Top White Globe Turnip No. 578

The most popular variety of all turnips. Globe-shaped, of good size and very attractive in appearance. Roots are large, purple or dark red above ground, white below. Flesh is white, fine grained and tender. Roots when in best condition for table use are about three inches in diameter, but for stock feeding should be allowed full growth. Keeps well and is a splendid market variety. A rapid grower, heavy cropper and fine quality. My strain is superior to most stock offered under this name.

Prices: Pkt., 5c; oz., 10c; ¼ lb., 30c; lb., 75c; 5 lbs., \$3.00 postpaid.

Choice Onion Sets

Largely planted in home gardens for green onions.

Red Wethersfield—A very hardy onion and a good keeper.

Yellow Danvers—A globe-shaped yellow onion.

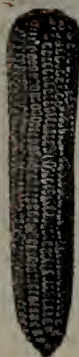

Prices on above: postpaid, lb., 40c; 3 lbs., \$1.00. Not prepaid, peck (8 lbs.), \$1.40; bu. (32 lbs.), \$4.50.

Silver Skin—A large, white onion, commonly known as the White Portugal or Silver Skin onion.

Prices: Postpaid, lb., 40c; 3 lbs., \$1.00. Not prepaid, peck (8 lbs.), \$1.50; bu. (32 lbs.), \$5.25.

Reuter's SELECTED Recleaned FIELD SEEDS

Davis' Prolific Seed Corn No. 747—

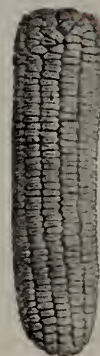

The most popular variety of all of my corns. Hard enough to be sound, tips well covered to resist weevils, and not so hard that stock cannot easily eat it. Two or more ears to the stalk, medium early, large, deep, wedge-shaped grain and small cob. Ears medium in size, filling close in the rows and well out at the tip and butt. A splendid stock corn, a good meal maker and splendid for silage. Tests show 70 pounds of ear corn will shell out 60 to 62 pounds of grain, or 86 per cent. I sell only the pure, originator's seed stock.

Prices: By mail, postpaid, lb., 25c; 2 lbs., 45c; 5 lbs., 90c; 10 lbs., \$1.75. Not prepaid, by express or freight, peck (14 lbs.), \$1.25; bu. (56 lbs.), \$4.00. Write for quantity prices.

Reuter's Surecopper Corn No. 754—

This variety is a dependable, quick maturing corn that is superior to the Mexican June and without that variety's disadvantages. It will give satisfactory yields on poor land and produce enormously on rich soil. It can be planted early for a quick crop and sown late for a follow-up. Highly resistant to heat and drouth. Large white grains on a white cob, ears not so large as some sorts, makes roasting ears in about 60 days and matures a crop in about 110 days. It shells 82 to 85 per cent grain, and is two weeks earlier than native corn. It is adapted to every cotton state.

Prices: By mail, postpaid, pkt., 10c; lb., 25c; 2 lbs., 45c. Not prepaid, by express or freight, peck (14 lbs.), \$1.25; bu. (56 lbs.), \$4.00.

Early Amber Cane No. 901—

A highly desirable forage crop for Southern farms. This is an extremely early sort and in many sections of the South two cuttings may be obtained. More cheaply grown than corn, with its fodder practically equal in value to corn, it produces much better yields. For green feed, cured hay, or for silage this variety has no superior. Great care and experience is employed in raising my cane seed and you may feel assured of getting choice, new-crop, true-to-name, recleaned seed. Don't overlook this variety as a forage crop.

Prices: By mail, postpaid, pkt., 10c; lb., 30c; 2 lbs., 50c. Write for quantity prices.

Sudan Grass Seed No. 825—

A sweet, heavy-yielding, drouth-resistant grass that will grow well in all Southern states. Stock relish it and it will produce more tonnage than any other forage. Can be cut with mower and cured like any other hay, will provide two to three cuttings and yields of three to five tons per acre. Its feeding value equals that of Johnson grass yet it never becomes a weed in fields where it has been sown. Requires seeding every year. Much impure seed is marketed each season—you'll get nothing but true-to-name seed from me.

Prices: By mail, postpaid, pkt. (4 oz.), 10c; lb., 35c; 2 lbs., 60c; 5 lbs., \$1.25. Write for quantity prices.

White Kaffir Corn No. 891—

A drouth resistant, sorghum growing four to eight feet tall, of upright growth. Strong stem, wide leaves, makes excellent fodder. Seed heads are prolific and are six to fifteen inches in length. Fine for green feed, for fodder or for grain.

Prices: By mail, postpaid, pkt. (4 oz.), 10c; lb., 25c; 2 lbs., 40c. Write for quantity prices.

Red Kaffir Corn No. 892—

Grows taller than the White, stalks are more slender, but juicier and very leafy. Heads long and slender, measuring 12 to 18 inches in length. Seeds red, smaller than the White and rather hard and brittle. Does well on poor land and yields heavier.

Prices: By mail, postpaid, pkt. (4 oz.), 10c; lb., 25c; 2 lbs., 40c. Write for quantity prices.

Genuine Dwarf Milo Maize No. 896—

One of the greatest drouth-resistants among all the sorghums. Grows only about four feet, with small stalk as compared with the ordinary Milo. Stalks are short, but large, and stand up well. Heads and seeds large. Earlier than Kaffir or standard Milo. Yields from 60 to 100 bushels to the acre. A straight-necked variety, making it easy to gather, to feed and to cut the heads. Produces a feed that, in one form or another, will be eaten by every animal on the farm and is very fattening.

Prices: By mail, postpaid, pkt. (4 oz.), 10c; lb., 25c; 2 lbs., 40c. Write for quantity prices.

Reuter's Frost-Proof Cabbage Plants—

Orders shipped from growing station from three to five days after order reaches us unless adverse weather prevents. No plants will be shipped to Florida.

Prices: By Parcel Post, prepaid, in lots of 100, 200, 300 or 400 plants, at 50c per 100 plants; 500 plants for \$1.75; 1,000 or more at \$3.25 per 1,000 plants. No orders for 50 or 150, 250, etc., accepted. Prices are for even quantities of one variety. Orders for mixed varieties take the higher price.

Prices: By express, not prepaid, in lots of 1,000 to 4,000 plants at \$2.25 per 1,000; 5,000 or more at \$2.00 per 1,000.

Varieties: Early Jersey Wakefield, Charleston Large Type Wakefield, Succession and Early Flat Dutch.

Feterita—The Great Drouth Crop No. 894—

A great forage crop, increasing in popularity, similar to Kaffir but grows a little taller and produces larger heads, standing erect. Stalks bear ten to twelve leaves, heads well filled with white or bluish white seeds. Grain larger than Milo and softer than Kaffir, and yields considerably more than either. Feterita will flourish while corn is burning up with heat. About a month earlier than Kaffir. I have never been able to obtain a sufficient stock to supply demand, so I suggest that you order early. All my seed carefully recleaned in my own warehouse.

Prices: By mail, postpaid, pkt. (4 oz.), 10c; lb., 30c; 2 lbs., 50c. Write for quantity prices.

Reuter's Improved Golden Dent Corn No. 760—

An improved type of a hardy Texas grown yellow variety that is declared to be the best high yielding yellow corn for the cotton states. Crop Improvement Association and Experiment Stations in Texas, Arkansas and Louisiana recommend this type as the standard yellow dent corn for the South. It is a medium early variety, usually maturing from 120 to 130 days from planting, ears blocky and well shaped, ordinarily measuring seven to ten inches long and about the same in circumference. Makes a strong stalk that stands up in stormy weather, and a large number will bear two ears. Shells out 80 to 88 per cent. It is a heavy yielder, making splendid crops on either uplands or bottoms.

Prices: By mail, postpaid, pkt., 10c; lb., 25c; 2 lbs., 40c. Not prepaid, by express or freight, peck (14 lbs.), \$1.25; bu. (56 lbs.), \$4.00.

Reuter's Giant Red Cob Corn No. 748—

Unquestionably the finest large-eared Southern field corn that you can plant for a main crop. It is large-grained, exceptionally productive, of high feeding and remarkable milling value, and for silage is unsurpassed. Stalks are 9 to 12 feet high, broad, strong and short-pointed; ears 8 to 12 inches long, 16 to 22 rows, deep grain, pure white, with red cob, averaging two large ears, and sometimes three, with foliage broad leaved and full; the finest large, white red-cob corn I have ever seen South or North. It is medium early, maturing in 100 to 120 days. My seed is strictly Southern grown, of highest vitality, germination 95 per cent or better.

Prices: By mail, postpaid, pkt., 10c; lb., 25c; 2 lbs., 45c. Not prepaid, by express or freight, peck (14 lbs.), \$1.25; bu. (56 lbs.), \$4.00.

SELECTED SEEDS for SOUTHERN NEEDS

Lespedeza or Japan Clover No. 733—

The best clover for spring planting for the South. It thrives on poor soils and continually improves them while yielding a highly profitable and nutritious hay. Yields of four tons to the acre are not rare. It has brought to many sections of the South the great benefits that Alfalfa has obtained for the West. Seed is not plentiful and I urge you to order early. My stock is genuine, re-cleaned and new-crop seed.

Prices: By mail, postpaid, pkt. (4 oz.), 15c; lb., 50c. Write for our best prices on large quantities.

Alfalfa — **New Mexico No. 701**—A variety particularly adapted to Louisiana, Mississippi and adjacent states. It has brought Alfalfa-prosperity to localities that never before were able to produce this money-making crop. Choice, new-crop, thoroughly re-cleaned seed.

Prices: By mail, postpaid, pkt. (4 oz.), 20c; lb., 60c; 10 lbs., \$5.00. Write for our best prices on larger quantities.

Hairy Peruvian No. 702—A long-season, vigorous growing sort, especially adapted to the South and Southwest, producing frequently three tons more to the acre than ordinary alfalfa. Will thrive at a temperature of ten degrees colder than common alfalfa and will not winter-kill above ten degrees above zero. My stock is genuine and of high quality.

Prices: By mail, postpaid, pkt. (4 oz.), 25c; lb., 75c; 10 lbs., \$6.50. Write for our best prices on larger quantities.

Clover Seed — **Red Clover No. 737**—A great hay, pasture and soiling crop, particularly adapted to the hill sections of the South.

Prices: By mail, postpaid, pkt. (4 oz.), 25c; lb., 75c; 10 lbs., \$6.50. Write for quantity prices.

White Clover No. 734—A small, hardy, perennial, spreading clover. Makes fine pasture, but too small in growth for hay.

Prices: By mail, postpaid, pkt. (4 oz.), 30c; lb., 85c; 10 lbs., \$7.50. Write for quantity prices.

Alsike Clover No. 736—Also known as Swedish Clover. Grows from one to two feet high, splendid for pasturage and soiling. Grows well on wet soils but does not thrive on dry lands.

Prices: By mail, postpaid, pkt. (4 oz.), 25c; lb., 75c; 10 lbs., \$6.50. Write for quantity prices.

Cow Peas — **Clay No. 796**—The most popular pea in the South.

Whippoorwill No. 797—A favorite early bunch-growing variety.

Unknown or Wonderful No. 798—The largest growing and most vigorous of the Cow Peas.

New Era No. 799—An early upright-growing variety; seed smaller than most others.

Mixed No. 805—For forage and pasture purposes a mixture serves admirably.

Prices on above: By mail, postpaid, pkt. (4 oz.), 10c; lb., 20c; 2 lbs., 35c. Write for quantity prices.

Japanese Honey Cane No.

898—This is the variety you should plant if you want to make syrup. Its flavor is superior and its delicate light color tends to increase the profits from its production. Matures in 120 to 125 days. Has from two to four stalks, reaching a height of 10 to 14 feet. Will thrive where the Louisiana Ribbon Cane will not and has materially increased the syrup-producing territory of the South. It yields enormously and no farmer who is looking for a fine syrup-making cane will make a mistake in putting in a crop.

Prices: By mail, postpaid, pkt. (4 oz.), 10c; lb., 35c; 2 lbs., 65c. Write for quantity prices.

Peanuts—Spanish No. 865—The

popular variety for feeding, forage and oil-making. Under favorable conditions will mature in 90 days. A small podded variety, very productive, stems upright, foliage abundant and heavy. Pods clustered about base of plant, usually two seeds in a pod, the pods adhering well to plant in digging.

Prices: By mail, postpaid, lb., 35c; 3 lbs., \$1.00. Write for quantity prices.

Tennessee Red No. 866—One of the best varieties, adapted to black, waxy land, but does well on sandy soil. Pods contain three large kernels each. Very productive.

Prices: By mail, postpaid, lb., 40c; 3 lbs., \$1.00. Write for quantity prices.

Velvet Beans—Osceola No. 712—A

hybrid, larger than the Early Speckle, more productive and earlier. Entirely free of itching fuzz.

Prices: By mail, postpaid, pkt., 10c; lb., 25c; 2 lbs., 45c. Write for quantity prices.

Extra Early Speckle No. 713—Probably the most popular variety planted in the South. A quick grower, maturing early, very prolific.

Prices: By mail, postpaid, pkt., 10c; lb., 25c; 2 lbs., 45c. Write for quantity prices.

Soy Beans—Mammoth Yellow No. 707—Largest growing and more generally planted than any other Soy. Grows three to five feet high, matures in 120 days.

Prices: By mail, postpaid, pkt., 10c; 2 lbs., 45c. Write for quantity prices.

Wannamaker's Improved Pedigreed Cleveland Big Boll Cotton No.

779—A superior pedigreed strain of Cleveland Big Boll Cotton. Earlier than other strains, with greater productivity, and a lint percentage running three to six per cent higher than other strains of the same variety. Equal in earliness to Kings, Simpkins and other similar sorts, with much greater productivity; picks easy because of the big bolls. Every pound of my seed is grown for me in Carolina and Georgia and there is absolutely no chance for Pink Boll Worm infection.

Prices: By mail, postpaid, lb., 30c; 3 lbs., 75c. Not prepaid, by express or freight, peck (7½ lbs.), \$1.00; bu. (30 lbs.), \$2.75; 100 lbs., \$8.50.

Cotton Seed Buyers—

Your special attention is called to the fact that every pound of Cotton Seed offered by Reuter is absolutely free from disease of any kind, including Pink Boll Worm. My seed is all grown for me in the Carolinas and Georgia, thousands of miles from infected territory, every pound of it is inspected and officially pronounced free from Pink Boll Worm. All of my cotton seed is specially grown for me by expert growers, specially ginned, selected and is absolutely true-to-name and type. Increase your yields and profits by planting my extra-choice seed.

Early King Cotton No. 781—

A quick and prolific boll maker that matures its crop early enough to insure a profit in spite of the boll-weevil. Blooms in 60 days, ready to pick in about 115 to 120 days. Small boll, short staple, perfectly bred, and an enormous producer of lint cotton. My seed is strictly Carolina grown, free from disease and positively without any chance of infection of Pink Boll Worm. Better send in your order for this weevil dodger early.

Prices: By mail, postpaid, lb., 30c; 3 lbs., 75c. Not prepaid, by express or freight, peck (7½ lbs.), \$1.00; bu. (30 lbs.), \$2.75; 100 lbs., \$8.50.

REUTER'S SELECTED FLOWER SEEDS

Reuter's Oriental Collection OF Vegetable Seeds

This Wonderful
Novelty Collection

FOUR **FREE** POST-
PKTS. PAID

This Collection of Oriental Vegetable Seeds is imported by us direct from China and will produce wonderful vegetables never before seen in your neighborhood. The Chinese are said to be the most wonderful gardeners in the world. These varieties of native vegetables are among those that are most famous in the Orient. The collection includes One Packet Each of Chinese Mustard, Chinese Swiss Chard, Chinese Radish and Chinese Cabbage, each and every one decidedly different than our American varieties and all wholesome and of delicious, savory flavor.

How to Get the Collection Free I want to become acquainted with more of your neighbors and friends and you can "introduce" them to me, if you will. This Oriental Collection is rather expensive but if you'll fill out the blanks on the reverse side of this sheet with the names and addresses of ten neighbors who have farms or gardens, and send it to me with an order for seed amounting to 20 cents or over, I'll send you this wonderful Oriental Collection free and postpaid. Read other side.

SELECTED SEEDS for SOUTHERN NEEDS

Lespedeza or Japan Clover

The best clover for spring planting. It thrives on poor soils and continues to yield a highly nutritious hay. Yields of four tons to an acre are not rare. It has brought to many sections the great benefits that Alfalfa has in the West. Seed is not plentiful and is expensive. My stock is genuine, reliable seed.

Prices: By mail, postpaid, pkt. 50c. Write for our best prices on order.

Clover Seed — Red Clover No. 734

Prices: By mail, postpaid, pkt. for quantity prices.

White Clover No. 734—A small, hardy pasture, but too small in growth for hay.

Prices: By mail, postpaid, pkt. for quantity prices.

Alsike Clover No. 736—Also known as two feet high, splendid for pasture, does not thrive on dry lands.

Prices: By mail, postpaid, pkt. for quantity prices.

Japanese Honey Cane

898 — This is the variety that should be planted to make syrup. It is superior and its delicate color tends to increase profits from its production. It matures in 120 to 125 days from two to four stalks per plant, reaching a height of 10 to 12 feet. Will thrive where the Ribbon Cane will not. It materially increases the producing territory of the cane. It yields enormously for the farmer who is looking for a syrup-making cane will make no mistake in putting in a

Prices: By mail, postpaid, pkt. 10c; lb., 35c; 2 lbs., 65c. Write for prices.

Wannamaker's Improved Pedigreed Cotton Big Boll Cotton

779 — A superior strain of Big Boll Cotton. Earlier than other strains, with productivity, and a percentage running three per cent higher than strains of the same variety. It is equal to Kings, Simpkins and similar sorts, with much greater productivity; picks easy because of the bolls. Every pound of my seed is grown and there is absolutely no chance of failure.

Prices: By mail, postpaid, lb. by express or freight, peck (7½ lbs.) \$3.50.

FILL OUT AND MAIL WITH SEED ORDER

Collection Sent Free Only When Names Accompany Seed Order Amounting to 20c or Over

This Collection of Oriental Seed is too valuable for me to send out in unlimited quantities and I am obliged to confine the gift to customers. The small amount of 20c or more need not prevent you from obtaining this novelty collection for you are certain to need at least a few packets of Flower or Garden Seeds for spring. Please write names and addresses carefully and plainly. No collections will be sent and no lists returned or acknowledged if sent in without an order for seed. Fill out the Blank now, make up your seed order, send both together and the Oriental Collection will be promptly mailed to you, postpaid.

ZINNIA

REUTER'S ACRE-SIZE GARDEN COLLECTION

30 PACKETS VEGETABLE SEEDS

POSTPAID : : : \$1.00

More than 10,000 family gardens were planted last season from this collection. It is without a doubt the greatest home-garden seed bargain ever offered by any Southern seedsman. The selection of the varieties, the choice of the fresh, new high germinating seed that goes into each packet, and the remarkable quantity of seed offered, should induce every reader of this page to include the collection in the first order. The varieties are all thoroughly tried and proven for Southern use and are the identical seed stocks that I supply to thousands of critical market gardeners in the great commercial truck sections of the South. The collection contains a sufficient quantity of seed and so wide a variety of vegetables that a family may have a garden practically all year. Be sure to head your order with this collection.
